

*Your local,
not-for-profit utility
district*

**Do You Know Where Your Service is located?
Do You Have a Gate Valve?**

**Customer Side
Gate Valve**

Meter

**Foresthill Use Only
Curb Stop**

A Gate Valve, also known as a shutoff valve, is a valve located on the customer's side of the meter that allows the customer to shut their water off at any time without having district personnel present. This valve is very helpful if you ever have a leak and need to make repairs.

If you do not have a gate valve, you or a plumber can install one. In most cases for residential customers the water meter is located at the front of the property near the street.

Next Foresthill Meeting

Foresthill Veterans Memorial Hall
Thursday,
March 9th, 2023
at 6:00 P.M

Check your Foresthill website
for an agenda which will be
posted 72 hours before the
meeting.

Water fun fact

Foresthill treated
396,000,000 gallons
of water in 2022!

Reservoir Updates

Rain Totals for the
calendar year 2023
= 21.57"
Average year +/- 49"

Storage = 6,957
Acre Feet

Reservoir currently
101% full

Preparing For the Cold Weather is a Must, Starting With the Pipes

**FREEZING TEMPS DON'T HAVE
TO MEAN FROZEN PIPES**

WRAP EXPOSED PIPES WITH INSULATION

- Open cabinets under sinks to let your house's heat warm the pipes
- Remove water hoses & wrap outdoor pipes
- Drain and turn off your lawn sprinkler system

In case of an Emergency Shutdown or Other Water Emergencies What's the Best Way to Contact You?

If your contact information changes, please contact us at customerservice@foresthillpud.com or (530) 367-2511.

Staff members use the contact information to reach out to you if we detected a leak or unusual water use. This can help you avoid high water bills and allow us to send you important news and updates. Foresthill makes the necessary calls each month notifying customers of possible leaks, emergency shut-offs, and more.
