## Foresthill Road Pipeline Replacement Project

**Installing Fire Hydrant**

The revitalization project funded partially by the 2020 water transfer is on budget and scheduled to be complete by Thanksgiving. The Mosquito fire slowed progress but also reminded us how important this project is. The improved fire flow throughout the system will help fight future fires. Thank you for your cooperation during this very important project to protect Foresthill.

## Next Foresthill Meeting

Wednesday,  
November 9th, 2022  
at 6:00 P.M.

Check your Foresthill website for an agenda which will be posted 72 hours before the meeting

### Water fun fact-

Foresthill treated 48,405,000 gallons of water in September!

## Reservoir Updates

Rain Totals for 2022 = 17.55"  
Average year +/- 49"

Storage = 5,871 Acre Feet

Reservoir currently 85% full

## Working Through The Mosquito Fire

Foresthill's water remained safe during the Mosquito Fire. Operators stayed onsite to keep the water treatment plant running to provide a continuous supply of safe water throughout the fire. The Mosquito Fire was one of the largest wildfires in Placer County history, totaling 76,788 Acres.

**Foresthill's water is continuously tested & monitored 24/7 even when disaster strikes**

## Know What's Below, Call Before You Dig!

- 1.** Call 811 or go to [Call811.com](http://Call811.com) a few days before digging to request that buried utilities in your yard be marked.
- 2.** Wait a few days for all utilities to respond to your request.
- 3.** Confirm that all utilities have responded.
- 4.** Respect the utility marks or flags.
- 5.** Dig carefully around buried utilities.

**Call811.com**

This is for your personal safety, the safety of others, and protects vital buried utilities. Calling 811 or filing a request online at [call811.com](http://call811.com) is always free!
