district for 75 years*

Commemorating the Successful Implementation and Launch of the SCADA Network

This plaque was presented to the operations team in appreciation of their outstanding craftsmanship and professionalism in completing the foundational phases of the SCADA (Supervisory Control and Data Acquisition System) modernization project for the Foresthill Public Utility District Water Treatment Plant. Your work has enhanced operational reliability, efficiency, and emergency preparedness while supporting the District's mission of providing safe, high-quality, and dependable water service to the good people of Foresthill.

Your contributions make a difference!
