FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Drug and Alcohol Policy
POLICY NUMBER: 2190

Drug and Alcohol Policy

The District is concerned about the use of alcohol in the workplace. This concern is based upon the effect that the use of alcohol has on your performance on the job. Use of alcohol on the job adversely affects your work performance, efficiency, safety and health and therefore seriously impairs your value to the District. In addition, the use of alcohol on the job constitutes a potential danger to the welfare and safety of other employees and exposes the District to the risks of property loss or damage or injury to other persons.

Similarly, the District requires and demands a workforce and workplace free of illegal substances (any drug which (a) is not legally obtainable or (b) is legally obtainable but has not been legally obtained. The term includes prescribed drugs not legally obtained and prescribed drugs not being used for the prescribed purposes.) This requirement is based upon the fact that any measurable amount of an illegal drug may render the employee physically or mentally impaired. While the District recognizes your right to your own lifestyle, the District will not accept the risk that on-the-job or off-the-job drug abuse by you may cause or contribute to accidents or other job performance problems.

Furthermore, the use or being under the influence of any legally obtained drugs by you while performing District business or while in a District facility is prohibited to the extent such use or influence may affect the safety of co-workers, members of the public, your job performance or the safe or efficient operation of the District facility. If you feel or have been informed that the use of a legal drug may present a safety risk, you are to report such drug use to the General Manager.

In order to provide you with some guidance concerning unacceptable behavior, the District strictly prohibits the following:

1. Possession, use, or working under the influence of alcohol and/or an illegal substance.
2. Distribution, sale, dispensing, manufacture or purchase of illegal controlled substances or controlled substances used in an illegal way at the worksite.
3. Driving a District vehicle at any time or your personal vehicle on District business while under the influence of alcohol or an illegal substance.
4. The use of, or working under the influence of, any controlled substance, including prescription drugs, if such use or influence may affect the safety of co-workers, members

of the public, your job performance or the safe or efficient operation of the District facility.

In order to enforce this policy, the District reserves the right to conduct searches of all property on District premises, including but not limited to contents of District lockers, desks, file cabinets, and District vehicles parked on District property when reasonable suspicion exists and implement other measures necessary to deter abuse of this policy.

If you have chemical dependencies (alcohol or drugs) the District will encourage and assist you to seek treatment and/or rehabilitation. To this end, if you desire such assistance you should request a treatment or rehabilitation leave. The District may also bring the matter to the attention of appropriate law enforcement authorities.

Reasonable Suspicion Testing

You will be tested for the presence of drugs and/or alcohol if reasonable suspicion exists to indicate that your ability to perform your work or to work safely may be impaired. Also, if there is reasonable suspicion of your possession, distribution, dispensing, manufacture of illegal drugs, or usage of alcohol or illegal drugs at the workplace, reasonable suspicion testing will be required.

If you fail the drug test your employment may be terminated. Any drug test specimen that is diluted or with no temperature readings will be considered a failed drug test.

If you refuse or otherwise fail to comply with the required suspicion-based testing process you will be subject to the disciplinary process, including, but not limited to, termination.

Employees assigned to safety sensitive duty must comply with State regulations regarding participation in random drug test pools.

Off-the-Job Conduct

In the case of illegal conduct relating to drugs during non-working hours, you are subject to disciplinary action up to and including termination. Based on the judgment of management regarding the circumstances of the case, you may be referred for treatment/rehabilitation rather than subjecting you to disciplinary action for violation of this policy.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Sexual Harassment and Equal Employment Opportunity
POLICY NUMBER: 2210

Sexual Harassment and Equal Employment Opportunity

The District has a strict policy against harassment of any type and our goal is to provide a work environment free from harassment. Conduct prohibited by these policies is unacceptable in the workplace and in any work-related setting outside the workplace, such as during business trips, business meetings and business-related social events. This policy covers harassment of any employee, applicant, or person providing services pursuant to a contract or any person who has a business, service or professional relationship with any agent of the District. Employees should immediately report any incidents of harassment, discrimination, Workers Compensation abuse, potential workplace violence situations or any workplace ethic violations to the General Manager.

This includes harassment based on race, color, religion, national origin, age, medical condition, disability, marital status, sex (including sexual harassment), sexual orientation or any other characteristic or activity protected by law. Although the following amplification specifically addresses the sexual harassment issues of the policy, its reporting, investigation and disciplinary provisions also apply to all other forms of harassment.

Definition

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal, visual or physical conduct of a sexual nature when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, (2) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting the individual, or (3) such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment, even if there are no tangible or economic job consequences.

The term "sexual harassment" includes many forms of offensive behavior. The following is a partial list of conduct that may constitute sexual harassment:

- ❑ Sexual advances
- ❑ Offering employment benefits in exchange for sexual favors
- ❑ Verbal conduct including derogatory comments, epithets, slurs or jokes that are either gender-based or of a sexual nature

- ❑ Visual conduct including leering, sexual gestures or the display of sexually suggestive objects, pictures or cartoons
- ❑ Physical conduct including touching, assaulting or impeding another's movement
- ❑ Gender-based harassment including harassment by someone of the same sex as the victim

Harassment on the basis of any other protected characteristic is also strictly prohibited. Under this policy, harassment is verbal, visual or physical conduct that denigrates or shows hostility or aversion toward an individual because of a characteristic or activity discussed in the first paragraph above that: (1) has the purpose or effect of creating an intimidating, hostile or offensive work environment; (2) has the purpose or effect of unreasonably interfering with an individual's work performance; or (3) otherwise adversely affects an individual's employment opportunities.

Harassing conduct includes, but is not limited to: epithets, slurs or negative stereotyping; threatening, intimidating or hostile acts; denigrating jokes and display or circulation in the workplace of written or graphic material that denigrates or shows hostility or aversion toward an individual or group (including through e-mail).

Sexual conduct is considered harassment only when it is "unwelcome." This inquiry often involves an assessment of whether the recipient made it known that the conduct was unwelcome. If you are subjected to unwelcome sexual conduct, therefore, you are encouraged (1) to inform the perpetrator that the conduct is considered offensive and should stop, and/or (2) to initiate the internal complaint procedure described below.

Sexual harassment is considered to be sex discrimination in violation of applicable federal and state law, including Title VII of the federal Civil Rights Act and the California Fair Employment and Housing Act. It also is prohibited to retaliate against an employee because the employee has complained about harassment or participated in an investigation, proceeding or hearing based on such a complaint. Retaliation against an individual for reporting harassment or for participating in an investigation of a claim of harassment is a serious violation of this policy and, like harassment itself, will be subject to disciplinary action.

Complaint Procedure

There is an internal procedure for handling complaints of sexual harassment. You should submit such a complaint to your immediate Supervisor, and/or the General Manager. Early reporting and intervention have proven to be the most effective method of resolving actual or perceived incidents of harassment. Therefore, while no fixed reporting period has been established, the District strongly urges the prompt reporting of complaints or concerns so that rapid and constructive action can be taken. A prompt, thorough and objective investigation of the complaint will be conducted. The investigation may include individual interviews with the parties involved and, where necessary, with individuals who may have observed the alleged conduct or may have other relevant knowledge. Upon completion of the investigation, and where warranted, appropriate corrective action will be taken to eliminate the harassment.

Corrective action may include, but is not limited to, training, counseling, reassignment and/or an appropriate level of discipline. To the extent possible, the investigation of a complaint and any subsequent action taken in response to the complaint will proceed in an atmosphere of confidentiality. Confidentiality will be maintained throughout the investigatory process to the extent consistent with the needs of conducting an adequate investigation and administering appropriate corrective action.

Employees who have had a complaint addressed by this complaint procedure should immediately make a further complaint should the harassment reoccur.

A complaint of sexual harassment may be filed within one year of the harassment with the California Department of Fair Employment and Housing (“DFEH”). The DFEH initially serves as a neutral fact-finder and attempts to help the parties voluntarily resolve the complaint. The DFEH can be contacted toll free at (800) 884-1684; or for the hearing impaired, (TTY) (800) 700-2320; or visit the department’s website at www.dfeh.ca.gov.

A complaint of sexual harassment also may be filed within 300 days of the harassment, with the Equal Employment Opportunity Commission (EEOC), reached by calling (800) 669-4000 or for the hearing impaired, the EEOC’s toll-free TTY number is (800) 669-6820. EEOC field office information is available at www.eeoc.gov.

This District is an Equal Employment Opportunity employer. In order to provide equal employment and advancement opportunities to all individuals, employment decisions at the District will be based on merit, qualifications, and abilities, not on any mental or physical disability. This District complies with the law regarding "reasonable accommodation" for disabled employees and applicants.

The District does not discriminate in employment opportunities or practices on the basis of race, color, religion, sex, national origin, age, ancestry, mental or physical disability, sexual orientation, medical condition, genetic information, marital status, Veteran status or any other characteristic protected by law.

This policy governs all aspects of employment, including hiring, promotion, job assignment, compensation, discipline, access to benefits, training, termination or other aspects of employment.

If you have questions or concerns about any type of discrimination in the workplace you are encouraged to bring these issues to the attention of the General Manager. You can raise concerns and make reports without fear of reprisal and/or retaliation.

Training

AB1825 Sexual Harassment Prevention Training is required every two (2) years for all members

of the Board of Directors, General Manager, Finance Manager and the Operations Supervisor.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: **Illness and Injury Prevention Program**
POLICY NUMBER: **3010**

Safety Policy: No function at Foresthill Public Utility District is so critical as to require or justify a compromise of safety and health.

We believe everyone benefits from a safe and healthy work environment. We are committed to maintaining a safe workplace and to complying with applicable laws and regulations governing safety.

To achieve this goal, the Foresthill Public Utility District has adopted an **Injury & Illness Prevention Program** (the IIPP). This program is everyone's responsibility as we work together to identify and eliminate conditions, practices, policies and procedures compromising safety.

To this end, each and every manager, supervisor and employee have the authority to take action to prevent mishaps.

It takes positive and genuine effort to assure a safe work environment. The alternative is wasted money and wasted time due to occupational injuries and illnesses and their associated pain and suffering.

Our expectations are everyone will:

1. Do the right thing the first time.
2. Seek to integrate safety into all tasks.
3. Avoid taking short cuts.
4. Take time to assure a safe workplace.
5. Have a safe and healthy work experience here at Foresthill Public Utility District.

Please join me in striving to achieve our ultimate goal of an injury-free organization.

Hank White, General Manager

Date

Responsibilities

The General Manager is responsible for overseeing the IIPP is implemented.

Duties include, but are not limited to:

- a. Ensuring all managers and supervisors actively support the IIPP.
- b. Providing the funding necessary to maintain an effective and compliant safety program.

2. Managers & Supervisors

They are responsible for training all of their employees to perform their jobs properly and safely. They teach, demonstrate, observe, and enforce compliance with established safety standards.

3. IIPP Administrator

The IIPP Administrator has the responsibility for the implementation, maintenance, and update of the IIPP.

4. Employees

Employees have the responsibility of performing their tasks properly and safely. They are to assure themselves they know how to do the job properly, and ask for additional training or assistance when they feel there is a gap in their ability, knowledge, or training. They should never undertake any task, job, or operation unless they are able to perform it safely.

Compliance

1. Management Responsibility

Management is responsible for ensuring organizational safety and health policies are clearly communicated and understood by employees. Managers & supervisors are expected to enforce the rules fairly and uniformly.

2. Employee Responsibility

All employees are responsible for using safe work practices, for following directives, policies and procedures, and for assisting in maintaining a safe work environment.

3. Performance Evaluations

- a. As part of manager & supervisor regular performance evaluations, they are evaluated on what they have done to ensure a safe workplace for their respective employees. They are also evaluated on their positive or negative loss results.
- b. As part of employee regular performance reviews, they are evaluated on their compliance with safe work practices.

4. Recognition

Managers & supervisors and employees who make a significant contribution to the maintenance of a safe workplace, as determined by their superiors, receive written acknowledgment maintained in their personnel files.

5. Employee Training

Employees who are unaware of correct safety and health procedures are trained or retrained.

6. Employee Correction

Employees who fail to follow safe work practices and/or procedures, or who violate organizational rules or directives, are subject to disciplinary action, up to and including termination in accordance with the organization's personnel-related policies and procedures.

Managers and supervisors correct safety violations in a manner considered appropriate by organizational management.

A suggested pattern for normal correction is as follows.

- a. First Offense - The employee is given verbal counseling.
- b. Second Offense - The employee is given a written warning. The documentation outlines the nature of the offense, what action the employee must take to correct the problem, and warns the employee another violation will result in suspension.
- c. Third Offense - The employee is given a one working day suspension with pay for the purpose of considering whether s/he truly wants to be part of the organization. If yes, upon return, the employee completes an action plan for correcting their behavior and working with the organization within a positive safety culture.
- d. Termination - When an employee is terminated, specific and documented communication as outlined above must have occurred.

Notwithstanding the above, the organization reserves the right to correct in any fashion it deems appropriate, including the right to terminate immediately an employee for a safety violation.

Communication

1. Two-Way Communication

Management recognizes open, two-way communication between management and staff on health and safety issues is essential to an injury-free, productive workplace.

2. The Organization's System of Communication

The following system of communication is designed to facilitate a continuous flow of safety and health information between management and staff in a form readily understandable.

- a. An orientation program is given to all new employees and includes a review of the IIPP and a discussion of policies and procedures employees are expected to follow. This program is documented on the *New Employee Safety Orientation Checklist*.
- b. The organization has safety meetings where safety is freely and openly discussed by all present. Such meetings are held monthly and all employees are expected to attend and are encouraged to participate in discussion. All such meetings are documented on the *Employee Meeting & Training Report Form*.
- c. From time to time, written safety notifications are included with paychecks or are posted on organization bulletin boards.
- d. Other methods of communicating pertinent health and safety information are used as they are identified.

3. Safety Suggestions and Hazard Reporting

- a. All employees are encouraged to inform their supervisors, or other management personnel of any matter which they perceive to be a workplace hazard, or a potential workplace hazard. They are also encouraged to report suggestions for safety improvement.

This reporting can be done orally or preferably in writing on the *Identified Problem Report Form*. If done in writing, the notification may be given directly to the supervisor, the IIPP Administrator or other management personnel, or placed in a suggestion box.

- b. If an employee wishes to report anonymously, a hazard, safety suggestion, or other safety problem he or she can complete an *Identified Problem Report Form*, not filling in their name.
- c. **No employee shall be retaliated against for reporting hazards or potential hazards, or for making suggestions related to safety.**
- d. Management reviews all suggestions and hazard reports.
- e. If employees provide their names in regard to the notification, they are informed of what is being done - within 5 working days of receipt.

Hazard Identification & Evaluation

Inspection of the workplace is our primary tool used to identify unsafe conditions and practices. While we encourage all employees to continuously identify and correct hazards and poor safety practices, certain situations require formal evaluation and documentation.

1. Safety Inspections

Internal safety inspections are conducted on a monthly basis for all shop and maintenance facilities. Safety inspections are conducted for all office areas at least annually. Hazards found are corrected on the spot or recommendations are submitted for future corrections. Inspections are documented on the *Safety Inspection Form/Action Form*.

2. Additional Inspections

Inspections are also conducted in accordance with Cal-OSHA requirements:

- a. Whenever new substances, processes, procedures or equipment present a new safety or health hazard.
- b. Whenever management/supervision become aware of a new or previously unrecognized hazard, either independently or by receipt of information from an employee.

Injury/Illness Investigation

1. Investigation

All accidents resulting in injury or property damage, however slight, including *near-hits*, are investigated to determine the primary and contributing causes within seven working days of the initial report. This information is documented on the *Investigation Report* and analyzed to assist in obtaining corrective actions to prevent similar accidents from occurring in the future. The responsibility to see this investigation is performed rests with the IIPP Administrator.

2. Reporting

All facts, findings, and recommendations are documented on an accident investigation report. Management reviews accident investigation reports with a view towards determining adequacy of corrective action.

Correction of Hazards

When a hazard exists it is corrected on a timely basis based on the severity of the hazard. If imminent danger exists to any employees, management and supervision remove these employees from the danger at once, and personnel who are provided with the necessary safeguards correct the hazard. Documentation of hazard corrections is completed on at least one of the following forms:

1. *Identified Problem Report Form*
2. *Investigation Report Form*
3. *Safety Inspection Form/Action Plan*

Training

1. Orientation - New Employees

- a. The IIPP Administrator and/or the Operations Supervisor conduct the initial orientation on general safety within the first two days the new employee is on the job.
- b. The orientation is documented on the *New Employee Safety Orientation Checklist*.
- c. All employees are provided with a copy of the IIPP and sign the *Acknowledgment of Receipt of the Injury & Illness Prevention Program (IIPP)*.
- d. All new hires are also given a copy of the organization's *General Code of Safe Practices*, and sign the *Acknowledgment of Receipt of the General Code of Safe Practices*.

2. Initial On-The-Job Training

When an employee first starts to work, a manager/supervisor trains the employee in all aspects of safety for the purpose of educating the new employee on the hazards of the work environment and the required safety procedures to mitigate those hazards.

The manager/supervisor conducts this training and documents it on the *Employee Meeting & Training Report Form*.

3. Specific Organization-Wide Training

a. Disaster Preparedness

This training includes the organization's disaster preparation structure and how the employee fits into the structure, i.e., what the employee is to do under specific circumstances, such as fire, earthquake, medical emergency, and bomb threat.

b. First Aid, CPR, and Bloodborne Pathogen Training

Designated employees receive first aid, CPR, and bloodborne pathogen training in accordance with the American Red Cross and/or American Heart Association requirements.

c. Defensive Driver Training

All employees who may drive on organization business receive defensive driver training not less than every three years. Driving on organization business includes driving organization vehicles as well as personal vehicles.

d. Ergonomics

All employees receive ergonomic training for their specific jobs. As a minimum, each employee receives training on proper lifting techniques and, if necessary, computer workstation design.

All specific organization-wide training is documented on the *New Employee Meeting & Training Report Form*.

4. Retraining

Reasons for retraining include change of job assignment, change of operations or materials, observation of poor work habits, or update of training methods. Managers, supervisors, and the IIPP Administrator perform retraining:

- a. When an existing employee changes job functions.
- b. On at least an annual basis as a refresher program.

Such training includes general workplace safety, job-specific hazards, and/or hazardous materials, as applicable.

All retraining is documented on the *New Employee Meeting & Training Report Form*.

5. Specialized Training

- a. Supervisors are trained in their responsibilities for the safety and health of their employees. Such training includes both safety management and technical subjects.

Supervisors are trained in the hazards and risks faced by the employees under their immediate direction.

- b. Managers, supervisors and the IIPP Administrator:

- 1) Determine safety-training needs
- 2) Implement new training programs.
- 3) Evaluate the effectiveness of these programs.

- 2) Management, supervision, the IIPP Administrator become aware of a previously unrecognized hazard and there is a lack of skill or knowledge to deal with the hazard.

All specific specialized training is documented on the *New Employee Meeting & Training Report Form*.

FORESTHILL PUBLIC UTILITY DISTRICT

POLICY HANDBOOK

POLICY TITLE: Hearing Conservation Program
POLICY NUMBER: 3015

3015.10 PURPOSE - The purpose of this policy is to communicate requirements for a Hearing Conservation Program and to establish district-wide standards for compliance with these requirements.

3015.20 POLICY - It is Foresthill Public Utility District's policy to protect its employees from hearing loss caused by exposure to high noise levels during the course of district employment. Employees need to be aware that a great deal of hearing loss is often attributable to activities outside of work. They should assume responsibility for protecting themselves by wearing hearing protection while doing outside-of-work activities such as cutting wood with a chain saw, using a leaf blower, using a wood chipper, shooting guns, using power tools, etc. Employees who file hearing loss claims against the District's workers compensation insurance for injuries sustained away from work are hurting their fellow employees financially.

3015.21 The District intends to minimize noise exposure to its employees through good design and engineering practices. Most often, employees are either in a noise-reduced environment or are working in an area where the noise is non-existent due to machinery being shut down.

3015.30 DEFINITIONS -

Action Level: A noise exposure equivalent to an eight-hour time-weighted average sound level of 85 dBA.

Audiometric Test: A test of an individual's hearing threshold level at various frequencies. Threshold levels are recorded as a function of frequency on an audiogram.

Baseline Audiogram: The audiogram, usually the first one taken, against which future audiograms are compared.

Decibels, A-weighted (dBA): A unit of measurement of sound level corrected by a sound level meter to the A-weighted scale.

High Noise Level Areas: Areas where it has been determined by sound level measurements that the noise level is 85 dBA or greater.

Standard Threshold Shift (STS): A change in hearing acuity that exceeds an average of 10 decibels or more at the 2000, 3000 and 4000 Hz frequencies, in either ear, relative to the baseline audiogram.

Time-Weighted Average (TWA): A calculated average of noise level exposures experienced by employees over an eight-hour period. It is based on the intensity of the noise and the length of exposure time experienced by employees.

3015.40 PROGRAM ELEMENTS -

3015.41 Audiometric Testing:

3015.411 Annual audiometric testing shall be made available to employees whose current job responsibilities expose them to noise at or above the action level.

3015.412 Only those employees who currently are in classifications listed in Exhibit A, or who specifically have been identified through personal or area monitoring as having noise exposures at or above the action level, are to be included in the annual testing.

3015.413 Employees shall be notified of test results and, depending upon the results, of the need for any further medical evaluation by a physician.

3015.414 Audiometric test records and personal or area monitoring records which are used to determine employee noise exposures shall be retained in accordance with Section 3015.45, Record Keeping.

3015.42 Posting:

3015.421 A copy of Article 105, Control of Noise Exposure, of the Cal/OSHA Standards (Exhibit B) shall be posted conspicuously at locations where employees covered by this policy normally report for work. A copy of the standard also shall be made available, upon request, to employees or their representatives.

3015.422 All high noise level areas and equipment and power tools which emit noise in excess of 85 dBA shall be posted, using signs and decals approved for that purpose (Exhibit C). Signs shall be posted at all entrances and shall be placed so that they will be observable by employees.

3015.43 Hearing Protection:

3015.431 Whenever feasible, control measures will be implemented to keep

employee noise exposure below the action level. Measures may include:

3015.4311 Administrative controls which limit the duration of exposure. Examples include: limiting the amount of time an employee must work in a high noise area; and, rotating employees assigned to work in a high noise level area so that individual employee exposure is below the action level.

3015.4312 Engineering controls that reduce sound levels by modifying the noise source or noise path between the source and the employee. Examples include: installing permanent, effective sound barriers around noisy equipment; adding a sound-dampened control or operators' room; replacing existing equipment with quieter models; and, redesigning existing equipment or work areas to reduce the noise level.

3015.432 Hearing protectors (e.g., inserts, muffs, etc.) must be worn by employees continuously while exposed to noise levels equal to or greater than 85 dBA, and while working in posted high noise level areas or with high noise emitting equipment and power tools. Note: the California Vehicle Code prohibits the use of muff-type hearing protectors, but allows the use of custom or molded ear plugs while driving.

3015.433 Hearing protectors shall be provided by the district and must be able to attenuate noise exposures to below 85 dBA.

3015.44 Training:

3015.441 Training shall be provided annually to all employees who are exposed to noise levels equal to or greater that 85 dBA and shall, as a minimum, discuss:

3015.4411 The effects of noise on hearing.

3015.4412 The purpose of hearing protectors; the advantages, disadvantages, and attenuation of the various types; and, the proper selection, fitting, use and care of hearing protectors.

3015.442 Training on the proper fitting, use, and care of hearing protectors shall be provided to those employees identified through audiometric testing as having a standard threshold shift (STS).

3015.443 All training shall be documented and maintained in accordance with Section 3015.45, Record Keeping.

3015.45 Record Keeping:

3015.451 Personal or area monitoring records used to determine employee noise exposures must be retained for at least two (2) years. The records are maintained in

the District's main office.

3015.452 Employee audiograms must be retained for the duration of the employee's employment. The audiograms are maintained in the District's main office.

3015.453 Annual training and STS training records must be kept for at least three (3) years.

3015.50 RESPONSIBILITIES:

3015.51 Divisions/Departments - Supervisory/management employees are responsible for ensuring that:

3015.511 Equipment and power tools which emit noise at or above 85 dBA, and high noise areas within their respective areas are identified and posted.

3015.512 Feasibility of engineering and administrative controls is considered.

3015.513 Scheduling and coordination of annual audiometric testing is accomplished.

3015.514 Only those employees having noise exposures at or above the action level are included in the annual testing and that employees to be tested are available for scheduled appointments.

3015.515 Employees receive the required annual training and, if applicable, STS training.

3015.516 Hearing protectors are available to employees and are worn as required.

3015.517 Supervisors follow district requirements when an employee reports a possible work-related hearing loss.

3015.52 Business Manager – The Business Manager is responsible for scheduling and coordinating audiometric tests directly with the district's audiometric testing contractor. In addition, the Business Manager is responsible for:

3015.521 Providing the audiometric testing contractor with a list of employees to be tested.

3015.522 Providing supervisors with either a list of the job classifications to be tested (Exhibit A), or a list of specific employees to be tested.

3015.523 Providing guidance and technical assistance, as requested, to assess or reassess specific employee noise exposures and area sound levels, and for assisting divisions and departments in establishing a hearing conservation training program. In addition, the Business Manager is responsible for administration of the Hearing Conservation Program including:

3015.5231 Updating the list of classifications which are to be included in the annual testing program.

3015.5232 Negotiating and managing the contract for outside audiometric testers.

3015.5233 Notifying employees of audiometric test results, and depending upon the results, the need for any further medical evaluation by a physician.

3015.5234 Processing industrial injury claims submitted by employees who believe they have work-related hearing losses.

3015.5235 Providing supervisory/management employees with the names of employees having STS.

3015.53 Employees - Employees are responsible for wearing hearing protectors as required by this policy.

GUIDELINES FOR THE SELECTION, FITTING, AND CARE OF HEARING PROTECTION

GENERAL SELECTION GUIDELINES

As a general guideline for noise levels: if you must shout in order to be heard three feet away, the noise levels are probably 85 dB or more.

Select the hearing protector with the best NRR (noise reduction rating) AND the most comfortable fit. See the note below regarding NRRs.

For adequate protection against exposure at sound levels above 100 dB for extended periods of time, you should wear a combination of ear plugs and earmuffs. This provides about 7 dB of extra protection above the NRR of the hearing protector with the highest NRR rating. For example, if the NRR of the plugs is 33 dB, then adding any pair of muffs would result in an approximate NRR of $33 + 7 = 40$ dB.

In general, ear plugs provide better protection than ear muffs. Ear plugs provide better protection in low frequency noise areas.

Banded ear canal caps, like the E-A-R Caboflex, are appropriate only for intermittent use, such as walking through a noisy area.

Employees who wear hearing aids have two selection options for hearing protectors: (1) wear ear muffs over their hearing aid, or (2) remove the hearing aid and wear ear plugs. The option chosen will depend on the degree of hearing loss and the possibility of creating any safety hazard for the employee or other workers. The employee's doctor should provide guidance regarding the correct hearing protection option.

NOTES ABOUT NOISE REDUCTION RATINGS (NRR)

Each hearing protector must list its NRR on the packaging. The NRR is determined under ideal laboratory conditions using an ANSI method.

The NRR can be used to compare different hearing protectors; however, differences of 3 dB or less are insignificant.

The NRR alone should NOT be used to calculate how much of a noise reduction the hearing protector gives to the wearer under actual field conditions. Under normal use, the actual amount of noise reduction is about one-half of the stated NRR.

FITTING AND CARE

General Guidelines

All resilient parts, such as ear flanges, earmuff cushions, foam plugs, etc., must be intact and flexible so that a good acoustical seal can be obtained.

For all types of earplugs, insertion is easier and more effective if the outer ear (pinna) is pulled outward and upward. This straightens and opens the ear canal. This technique is normally illustrated on the packaging of the earplugs.

Plugs should be inserted into the right ear using the right hand and into the left ear with the left hand. The pinna is pulled with the opposite hand by reaching behind or over the head. This allows the hand inserting the plug to have the best line of approach for proper fitting.

Foam Plugs

Roll the plug into the smallest, crease-free diameter cylinder as possible. Crease-free rolling is accomplished by squeezing lightly as one begins rolling, and then applying progressively greater pressure as the plug becomes more tightly compressed.

Hold the plug in place until it expands to just fill the ear canal (about 10-15 seconds).

Foam plugs should not be readjusted while in the ear. If the initial fit is unacceptable, remove the plugs, reroll and reinsert them.

To Check For Proper Insertion:

Remove the plug after wearing it for 1 or 2 minutes. If it was well fitted it should appear free of creases or wrinkles. The still partially compressed portion of the plug will indicate that at least one-half of its length had extended into the ear canal.

Care

These plugs are considered disposable after each use. If desired, they may be washed in a mild soap solution and air-dried.

Discard plugs if they harden or do not re-expand to their original size and shape.

Molded Plugs

To Insert:

Insert the plug until it feels like it's sealing. A properly inserted plug will create a blocked-up feeling due to the airtight seal.

To Check For Proper Insertion:

The seal can be tested by gently pumping the plug in and out of the ear canal. When a proper acoustic/pneumatic seal is present, the pumping motion will cause minor pressure changes in the ear that the wearer should be able to detect.

Remove these plugs using a slight twisting or rocking motion to break the seal.

Care

These are reusable plugs. Wash them in warm, soapy water, rinse well and air dry.

These plugs should last several months or more depending on the work environment, body chemistry, and proper cleaning of the plugs.

Replace the plugs if they shrink, harden, tear, crack, or become permanently deformed.

Ear Muffs

To Fit

Place muffs over the head. The muffs should fully enclose the ears to seal against the head.

Adjust the headband so the cushions exert even pressure around the ears. Pull hair back and out from beneath the cushions.

Eyeglass temples should fit close to the side of the head and be as thin as practical to reduce their effect on the ability of the cushions to seal around the hear. The loss in attenuation that temples create, with cushions in good condition, is normally 3-7 dB.

Care

Cushions on earmuffs should be washed with warm, soapy water - not solvents.

Cushions should be replaced twice a year, or whenever they become stiff, cracked, or do not seal.

Replace the earmuffs if the headband tension decreases sufficiently to affect the muff's ability to seal against the head.

EXHIBIT B
STANDARD THRESHOLD SHIFT TRAINER'S GUIDE

IN PREPARATION FOR THE TRAINING:

1. Review the following documents:
 - STS Counseling Checklist (Exhibit C);
 - Guidelines for the Selection, Fitting, and Care of Hearing Protection (Exhibit A).
2. Order a selection of hearing protectors to use for demonstrations during the training.
3. Arrange for a room. Allow about 30 minutes to retain 1-2 employees.
4. Contact the employees and provide the date, time, and location of the meeting. Explain that the purpose of the meeting is to retrain them in the proper selection, use, and care of hearing protectors. OSHA requires this retraining because of a change in their hearing called a Standard Threshold Shift (STS).
5. Remind the employees that the hearing test contractor sent their hearing test results to their home. (The Business Manager maintains a file of employees' annual hearing test results.)
6. Ask the employees to bring the hearing protectors they typically use to the meeting as a training aid.
7. Have a copy of the STS Counseling Checklist (Exhibit C) for each employee to be trained. The checklist will be used to ensure that all required training elements are covered and documented.

TRAINING PRESENTATION

1. Reiterate the purpose of the retraining.
2. Show the different types of hearing protectors available. Demonstrate the use of each type, if desired.
3. Cover all items on the STS Counseling Checklist.
4. Sign and date the STS Counseling Checklist and ask the employee to sign to document the training. Give the employee a copy of the checklist.
5. Keep the original STS Counseling Checklist with your other OSHA-required training records for three (3) years.

EXHIBIT C

STS COUNSELING CHECKLIST

____ 1. Explain that a STANDARD THRESHOLD SHIFT is an average change in hearing of 10 decibels (dB) or greater as compared to the baseline audiogram, measured over the frequencies of 2000, 3000, and 4000 Hertz (Hz). This change is also called an OSHA SHIFT. It may be present in only one ear. An example of calculating an STS follows.

AUDIOGRAM EXAMPLE FOR ONE EAR

FREQUENCY IN HZ	BASELINE THRESHOLDS IN dB	ANNUAL THRESH- OLDS IN dB	CHANGE FROM BASELINE
500	5	5	0
1000	5	5	0
2000	0	10	+10
3000	5	20	+15
4000	10	35	+25
6000	10	15	50

Taking the values for 2000, 3000 and 4000 Hz, there are changes in hearing threshold of 10, 15 and 25 dB, respectively.

$$\text{STS} = \frac{(10+15+25)}{3} = \frac{50}{3} = 16.7 \text{ dB}$$

____ 2. Explain that an STS is different than a COMPENSABLE HEARING LOSS which is defined by the California Workers' Compensation Law. For a compensable hearing loss, a formula is used to determine the amount of hearing disability in the speech frequencies of 500, 1000, 2000 and 3000 Hz.

____ 3. Explain that there are a number of possible reasons for a change in hearing. Any of the following conditions or situations occurring at the time of the test could affect the employee's hearing test results:

- ringing in the ears;
- problems taking the test;
- cold or sinus problems;
- drowsiness;
- some prescription medications for heart disease, etc.;
- exposure to loud noise without hearing protection.

____ 4. Explain that employees who have an STS and are exposed to noise levels of 85 decibels or greater, must wear hearing protection. Use the attached Guidelines for the Selection, Fitting, and Care of Hearing Protection (Exhibit E) as a tool to select hearing protectors with an adequate

Noise Reduction Rating (NRR) and to properly fit and care for the selected hearing protector.

a) If the employee is **NOT CURRENTLY USING** a hearing protector (HP) then:

____ INFORM of mandatory use in work areas of 85 dB & greater

____ FIT with adequate HP:

TYPE _____ NRR

____ TRAIN in proper care and use of HP.

b) If employee **IS CURRENTLY USING** a HP then:

____ NOTE CURRENT HP: TYPE _____ NRR _____

____ CHECK HP COMPLIANCE. Wears regularly? Yes__ No

____ CHECK HP RATING. NRR adequate? Yes__ No

If no, REFIT with HP of higher NRR or use a combination of earplugs and muffs.

TYPE _____ NRR

____ CHECK HP USE. Inserts/uses properly? Yes__ No

RETRAIN on appropriate care and use.

____ CHECK HP FIT. HP fits properly? Yes__ No

If no, REFIT with a different HP.

TYPE _____ NRR

____ 5. Remind the employee of the hazards of noise both on and off the job. Hearing protection should be worn at all times when exposed to loud noise.

Foresthill Public Utility District POLICY HANDBOOK

POLICY TITLE: Capital Improvement Program
POLICY NUMBER: 3022

3022.10 PURPOSE:

One of the primary responsibilities of Foresthill Public Utility District officials is to preserve, maintain, and improve the District's water system, facilities and equipment. Planning for capital improvements promotes sound financial management and development practices.

The Capital Improvement Program (CIP) for the Foresthill Public Utility District develops a sustainable approach for planning short and long-range physical development. It is intended to link the District's budget to physical developments and provide a mechanism for:

- Estimating capital requirements
- Planning, prioritizing, scheduling, and implementing projects during the next five (5) years
- Developing revenue policy for proposed improvements
- Budgeting high priority projects
- Informing the public of planned capital improvements

3022.20 CRITICAL COMPONENTS

This policy is intended to be a dynamic, evolving plan to facilitate meeting the future capital needs of the District. There are a myriad of factors that may influence and affect the District's planning process as the CIP continues to develop and mature, including the following list of critical components, *which is not all-encompassing*:

3022.21 Forecast Demand for future services and capital facilities, taking into account all applicable demand factors including population, housing units, commercial growth, etc.

3022.22 Inventory of Existing Capital Facilities to determine future demands for maintenance, repair, rehabilitation or replacement; and to determine adequacy of existing facilities to meet future needs (**see Deferred Maintenance List and Five-Year Capital Improvement Program Spread Sheet**).

3022.23 Level of Service (LOS) Standards, an inventory of services currently provided and projections of services to be provided in the future. Typically, LOS measure is a ratio of facility capacity to actual or potential demand, although a variety of other

measurements are applicable to various services. Future demand will include expectations of the District's constituents.

3022.24 Capital Improvement Program Request Form (Exhibit A.) and Capital Improvement Construction Information Form (Exhibit B.), forms that contain information about each project to assist the Board of Directors with evaluating and ranking complex projects being considered for placement on the District's Five Year Capital Improvement Program. Additional supporting data may be attached. The development of and changes to Exhibits A. and B. will be governed by the Planning Committee.

3022.25 Score Sheet--Capital Improvement Needs Assessment Form (Exhibit C.) details the criteria on which projects will be ranked, prioritized, and executed. The specific criteria, and its ranking and weighting, will be subject to recommendation by the Planning Committee and the approval of the District Board.

3022.26 Funding Recommendations must include soundly rationalized bases for use of public funds. Where use of public debt is being proposed, cash flow projections over the life of the debt amortization must be calculated, and the impact on future District budgets and financial statements shall be estimated by the Financial Committee.

3022.30 PROCEDURES FOR SUBMITTING AND AMENDING PROJECTS

A key element in the CIP is the collection of data to identify future Capital needs. It is the responsibility of managers/supervisors and District Board members to initiate requests for new projects, modifications, and/or re-prioritization by sending completed **Exhibit A. Capital Improvement Request Form(s)** and supporting information **Exhibit B. Capital Improvement Request Construction Information Form(s)** to the Planning Committee.

3022.40 EVALUATION AND PRELIMINARY RANKING BY COMMITTEE

At least annually or as often as deemed necessary, District managers/supervisors will perform an initial evaluation and ranking of projects and submit to Planning Committee. The Planning Committee will meet quarterly or as often as needed. Copies of all revised preliminary project rankings will be provided to **District managers/supervisors** prior to review and formal prioritization or re-prioritization by District Board of Directors.

3022.50 REVIEW AND PRIORITIZATION BY DISTRICT BOARD

The District Board will conduct workshop sessions as needed to review and approve projects to be included in the CIP, and to prioritize them. Projects will be prioritized in accordance with evaluation criteria contained on **EXHIBIT C. SCORE SHEET -- CAPITAL IMPROVEMENT NEEDS ASSESSMENT FORM** adopted by the Board and made an integral part of this policy. Project evaluation will include, but not be limited to, the following criteria:

- **Contributes to Health, safety and welfare**
- **Project needed to comply with local, state or federal law**
- **Project conforms to adopted program, policy or plan**
- **Project remediates an existing or projected deficiency**
- **Will project upgrade facilities?**
- **Contributes to long-term needs of Community.**
- **Service area of project**
- **District Priority Rating of Project**

3022.60 DISTRICT BOARD TO ESTABLISH CAPITAL RESERVE FUNDS

This Capital Improvement Program provides the basis and authority for CIP Capital Reserve Funds to be established in compliance with applicable State laws and in accordance with applicable guidelines published by the Governmental Accounting Standards Board (GASB). Capital Reserve Funds are derived from funds designated by the Board of Directors. The Capital Reserve Fund is to be used for projects that have been prioritized in the Capital Improvement Program and approved by the Board of Directors. Funds in the CIP Capital Reserve Fund(s) may be transferred to specific Capital Project Funds in accordance with asset management plans and financing plans developed by the Finance Committee and approved by the Board. The Board may authorize the temporary transfer of funds from the Capital Reserve Fund if the District is responding to an unforeseen emergency. In such emergency situations, the amounts transferred from Capital Reserve Fund must be restored when adequate funds are available and no later than the applicable fiscal year end without obtaining prior Board approval.

3022.70 DEVELOP FUNDING PLANS FOR PROJECTS WITH START DATES NEXT TWELVE (12) MONTHS AND DEVELOP TENTATIVE FUNDING PLANS FOR PROJECTS WITH START DATES BEING PROPOSED FOR THE NEXT FIVE FISCAL YEARS.

3022.71 At least once each year, or more often as necessary, the District Board will adopt an updated CIP which will include all prioritized short and long-term projects.

3022.72 On a regular basis, but not less frequently than once a year, the District Board will develop and approve financing plan(s) for project(s) to be executed during the next

twelve (12) months, and tentative financing plans for longer term projects. Financing plans will incorporate the following sources of funds, as appropriate:

- Operating revenues
- Cash from CIP Capital Reserve Fund
- Bond Issue
- Cash from fund balance and current surplus
- Future budget projections
- Program Revenue (return on capital investments)
- Grant sources
- Preferential and/or subsidized debt financing
- Traditional debt
- Cost sharing/Partnership

3022.73 It is recognized that priority rankings may not necessarily correspond to funding sequence because of limited CIP revenue streams, the availability of restricted revenue sources, and other possible limitations. Therefore, the priority ranking of projects will be a governing guideline, subject to extenuating, justifiable reasons for out-of-sequence exceptions.

3022.80 MODIFYING THE CAPITAL IMPROVEMENT PROGRAM

The purpose of the CIP is to provide a planning and funding mechanism for the District's investment in long-term capital assets which, by their nature, impose incremental costs of use and ownership throughout their lives, cost that will be funded by significant expenditure of public monies. Accordingly, modifications to the CIP Policy, or major modification to the way it is administered, including criteria for evaluating projects, will be undertaken in accordance with applicable law.

POLICY HANDBOOK

POLICY TITLE: **Financing Covenant Review**
POLICY NUMBER: **3023**

3023.10 Each year on or before September 30th, the General Manager shall review all of the covenants of all of the District’s multi-year financings (bonds, certificates of participation, etc.) to determine whether or not the District is in compliance with the covenants contained in the various financing documents (e.g., disclosure agreements, etc.) for the prior fiscal year.

3023.20 After the General Manager’s review is complete, his or her conclusions, along with any supporting materials, shall be submitted to an independent auditor whose only task on behalf of the District is to review and certify the accuracy the General Manager’s assumptions and conclusions regarding the District’s compliance with the covenants. This review and certification shall be completed no later than November 30th.

3023.30 Prior to the District’s submission of any written representations regarding compliance or non-compliance with any covenants associated with any District financings, the Board of Directors shall review and accept the General Manager’s conclusions as reviewed and certified by the independent auditor. In no event, shall the Board’s review and acceptance take place later than December 31st of each year.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Debt Management Policy
POLICY NUMBER: 3025

This Debt Management Policy (the “Debt Policy”) establishes the parameters within which debt may be issued and administered by the Foresthill Public Utility District (the “District”). Additionally, these policies apply to debt issued by the District on behalf of assessment districts, community facilities districts, or other special districts, and other types of conduit-type financings.

1. Purpose

This Debt Policy is intended to comply with Government Code Section 8855(i), effective on January 2017, and shall govern all debt undertaken by the District. The District hereby recognize that a fiscally prudent debt policy is required in order to:

- Maintain the District’s sound financial position.
- Ensure the District has the flexibility to respond to changes in future service priorities, revenue levels, and operating expenses.
- Protect the District’s credit-worthiness.
- Ensure that all debt is structured in order to protect both current and future taxpayers, ratepayers and constituents of the District.
- Ensure that the District’s debt is consistent with their planning goals and objectives and capital improvement program or budget, as applicable.

2. Scope

The guidelines established by this policy will govern the issuance and management of all debt funded for long-term capital financing needs and not for general operating functions. When used in this policy, “debt” refers to all forms of indebtedness and financing lease obligations. The District recognizes that changes in the capital markets and other unforeseen circumstances may require action that deviates from this Debt Management Policy. In cases that require exceptions to this Debt Management Policy, approval from the Board will be necessary for implementation.

3. Objectives

The purpose of this Debt Management Policy is to assist the District in pursuit of the following equally important objectives, while providing full and complete financial disclosure and ensuring compliance with applicable state and federal laws:

- Minimize debt service and issuance costs.
- Maintain access to cost effective borrowing.
- Achieve the highest practical credit rating.

- Ensure full and timely repayment of debt.
- Maintain full and complete financial disclosure and reporting.
- Ensure compliance with debt covenants.
- Ensure compliance with applicable state and federal laws.

4. Policies

A. Purposes For Which Debt May Be Issued

1. Long-Term Debt. Long-term debt may be issued to finance the construction, acquisition, and rehabilitation of capital improvements and facilities, equipment and land to be owned and operated by the District.
 - a. Long-term debt financings are appropriate when the following conditions exist:
 - When the project to be financed is necessary to provide basic services.
 - When the project to be financed will provide benefit to constituents over multiple years.
 - When total debt does not constitute an unreasonable burden to the District and the District's taxpayers and/or ratepayers, as applicable.
 - When the debt is used to refinance outstanding debt in order to produce debt service savings or to realize the benefits of a debt restructuring.
 - b. Long-term debt financings will not generally be considered appropriate for current operating expenses and routine maintenance expenses.
 - c. The District may use long-term debt financings subject to the following conditions:
 - The project to be financed must be approved by the governing board of the District.
 - The weighted average maturity of the debt (or the portion of the debt allocated to the project) will not exceed the average useful life of the project to be financed by more than 20%.
 - The District estimates that sufficient revenues will be available to service the debt through its maturity.
 - The District determines that the issuance of the debt will comply with the applicable state and federal law.
2. Short-term debt. Short-term debt may be issued to provide financing for the District's operational cash flows in order to maintain a steady and even cash flow balance. Short-term debt may also be used to finance short-lived capital projects; for example, the District may undertake lease-purchase financing for

equipment.

B. Methods of Financing and Types of Debt

The General Manager of the District will investigate all possible financing alternatives including, but not limited to bonds, loans, state bond pools, and grants.

- **Cash Funding** – The District funds a significant portion of capital improvements from reserves accumulated from one-time revenues, which have been set aside for investment in the District’s infrastructure.

- **Inter-fund borrowing** – The District may borrow internally from other funds with surplus cash in lieu of issuing bonded debt. Purposes warranting the use of this type of borrowing could include short-term cash flow imbalances, interim financing pending the issuance of bonds, or long-term financing in lieu of bonds for principal amounts of under \$1 million. Inter-fund borrowing should be undertaken only under the following circumstances and conditions:
 - Board approval required for all loans;
 - Fixed loan term (i.e., specific number of months with repayment date);
 - Lending fund must charge interest at level commensurate with what it might otherwise expect to receive if it were to invest such funds in the open market, given substantially equivalent parameters;
 - Specific revenue pledged to repay the loan must be based on realistic expectations for receipt;
 - Funds in the lending fund must not be needed for operations during the period of the loan; and
 - Loans must not be made from project-specific restricted funds, grant funds or other funds enabled by State or Federal legislation.

Inter-fund loans provide an alternative investment opportunity for idle funds with the same return on the investment that would have been earned otherwise. If the Board elects to pursue this option, staff would return at a subsequent meeting with a specific proposal for inter-fund loans. The General Manager shall also exercise due diligence to ensure that it is financially prudent for the lending fund to make the loan. Inter-fund loans will be evaluated on a case-by-case basis. Any borrowing between two District funds requires approval by Board resolution and shall be documented with an agreement specifying the terms of the borrowing, including the security, interest rate, payment dates and amount and the maturity date. The purpose of inter-fund borrowing is to finance high priority needs and to reduce costs of interest, debt issuance and/or administration.

- **Bank Loans / Lines of Credit** – Although the District does not typically utilize lines of credit for the financing of capital projects, financial institution credit is an option for municipal issuers and may be evaluated as a financing

option.

- **Other Loans** – The District will evaluate other loan programs, including but not limited to State “loans” or federal “loans” through the United States Department of Agriculture for the construction of infrastructure projects.
- **Bond Financing** – The District may issue any bonds which are allowed under federal and state law including but not limited to general obligation bonds, certificates of participation, revenue bonds, refunding bonds, land-secured (assessment and special tax) bonds, and other obligations (see below for detail). The following types of debt are allowable under this Debt Policy:
 - **General obligation bonds (GO Bonds):** General Obligation Bonds (GO Bonds) may only be issued with two-thirds approval of the District’s registered voters. The California State Constitution (Article XVI, Section 18) limits the use of the proceeds from GO Bonds to “the acquisition or improvement of real property”.
 - **Lease revenue bonds, certificates of participation (COPs) and lease-purchase transactions:** Lease financings may take a variety of forms, including COPs, lease revenue bonds, and direct leases (typically for equipment). When the District finances acquisition or construction of capital improvements or equipment with a lease financing, the District agrees to lease either the financed asset or a different asset and, most commonly, the District’s lease payments are securitized in the form of certificates of participation or lease revenue bonds. This type of financing requires approval of Board.
 - **Revenue bonds:** Revenue Bonds are generally issued by the District for enterprise funds that are financially self-sustaining without the use of taxes and therefore rely on the revenues collected by the enterprise fund to repay the debt. This type of financing requires approval of the Board.
 - **Refunding Obligations** – Pursuant to the Government Code and various other financing statutes applicable in specific situations, the Board is authorized to provide for the issuance of bonds for the purpose of refunding any long-term obligation of the District. Absent any significant non-economic factors, a refunding is required to meet the following test: 1) the refunding must produce a minimum net debt service savings (net of reserve fund earnings and other offsets, and taking transaction costs into account) of at least 3% of the par value of the refunded bonds on a net present value basis, unless the General Manager determines that a lower savings percentage is acceptable, and 2) the final maturity of the original bonds cannot be extended. Additionally, the General Manager may determine that there are other, compelling “non-economic” reasons (i.e. removal of onerous covenants, terms or conditions).

- **Special Tax Bonds** – Under the Mello-Roos Community Facilities Act of 1982, the District may issue bonds on behalf of a Community Facilities District (CFD) to finance capital facilities, most commonly in connection with new development. These bonds must be approved by a two-thirds vote of the qualified electors in the CFD, which the Mello-Roos Act defines to mean registered voters if there are 12 or more registered voters in the CFD and, if there are fewer than 12 registered voters, the landowners in the CFD. Bonds issued by the District under the Mello-Roos Act are secured by a special tax on the real property within the CFD. The Board will approve any special tax bonds prior to placement on a ballot for voter consideration. The financed facilities do not need to be physically located within the CFD. As this type of financing is secured by the special tax lien upon the real property it does not obligate the District’s general fund or other funds.

- **Assessment Bonds** – The Improvement Bond Act of 1915 (Streets and Highways Code Section 8500 et seq.) and other state laws, subject to Article XIID of the California Constitution, allow the District to issue bonds to finance improvements that provide “specific benefit” to the assessed real property. Installments are collected on the secured property tax roll of the County. This type of financing is secured by the lien upon and assessments paid by the real property owners and does not obligate the District’s general fund or other funds. This type of financing requires approval of the Board.

- **Other Obligations** – There may be special circumstances when other forms of debt are appropriate and may be evaluated on a case-by-case basis. The governing body may from time to time find that other forms of debt would be beneficial to further its public purposes and may approve such debt without an amendment of this Debt Policy. Such other forms include, but are not limited to: Tax and revenue anticipation notes (TRANs), bond anticipation notes, grant anticipation notes, tax allocation bonds, pension obligation bonds, conduit financings, such as financings for affordable rental housing and qualified 501(c)(3) organizations, etc.

C. Relationship of Debt to Capital Improvement Program and Budget

The District is committed to long-term capital planning. The District intends to issue debt for the purposes stated in this Debt Policy and to implement policy decisions incorporated in the capital budget and the capital improvement plan.

Budget Integration – The decision to incur new indebtedness should be integrated with the policy decisions embedded in the Board-adopted Operating Budget and Capital Improvement Budget. The annual debt service payments shall be included in the Operating Budget. The District will integrate its debt issuances

with the goals of its Capital Improvement Program by timing the issuance of debt to ensure that projects are available when needed in furtherance of the District's public purposes. The District will seek to issue debt in a timely manner to avoid having to make unplanned expenditures for capital improvements or equipment from its general fund.

The District will strive to fund the upkeep and maintenance of its infrastructure and facilities due to normal wear and tear through the expenditure of available operating revenues. The District will seek to avoid the use of debt to fund infrastructure and facilities improvements that are the result of normal wear and tear.

The District will seek to avoid the use of debt to fund infrastructure and facilities improvements in circumstances when the sole purpose of such debt financing is to reduce annual budgetary expenditures.

Biennial Review – Recognizing that cost-effective access to the capital market depends on prudent management of the District's debt program, a biennial review of the debt policy should be performed. The debt policy will be included as an Appendix in the annual Budget adopted by the Board. Any substantive changes to the policy shall be brought to the Board for consideration and approval.

D. Policy Goals Related to Planning Goals and Objectives

The District is committed to long-term financial planning, maintaining appropriate reserve levels, and employing prudent practices in governance, management, and budget administration. The District intends to issue debt for the purposes stated in this Debt Policy and to implement policy decisions incorporated in the bi-annual operations budget.

It is a policy goal of the District to protect taxpayers, ratepayers (if applicable), and constituents by utilizing conservative financing methods and techniques so as to obtain the highest practical credit ratings (if applicable) and the lowest practical borrowing costs.

The District will comply with applicable state and federal law as it pertains to the maximum term of debt and the procedures for levying and imposing any related taxes, assessments, rates and charges.

E. Internal Control Procedures

When issuing debt, in addition to complying with the terms of this Debt Policy, the District shall comply with any other applicable policies regarding initial bond disclosure, continuing disclosure, post-issuance compliance, and investment of bond proceeds.

Without limiting the foregoing, the District will periodically review the requirements of and will remain in compliance with the following:

- Any continuing disclosure undertakings entered into by the District in accordance with SEC Rule 15c2-12.
- Any federal tax compliance requirements, including, without limitation, arbitrage and rebate compliance.
- Investment policies as they relate to the use and investment of bond proceeds.

Proceeds of debt will be held either (a) by a third-party trustee or fiscal agent, which will disburse such proceeds to or upon the order of the District upon the submission of one or more written requisitions by the General Manager, or his or her written designee, or (b) by the Covered Entity, to be held and accounted for in a separate fund or account, the expenditure of which will be carefully documented by the Covered Entity.

F. Structure and Term

Term of Debt – Debt will be structured for the shortest period possible, consistent with a fair allocation of costs to current and future users. Consistent with its philosophy of keeping its capital facilities and infrastructure systems in good condition and maximizing a capital asset’s useful life, the District will make every effort to set aside sufficient current revenues to finance ongoing maintenance needs and to provide reserves for periodic replacement and renewal. Generally, no debt will be issued for a period exceeding the useful life or average useful lives of projects to be financed.

Bond Maturity Options – For each issuance, the District will select serial bonds or term bonds, or both. On the occasions where circumstances warrant, capital appreciation bonds (CABs) may be used. The decision to use term, serial or CABs is typically driven by market conditions.

Interest Rate Structure – The District currently issues securities on a fixed interest rate basis only. Fixed rate securities ensure budget certainty through the life of the issue and avoid the volatility of variable rates. The use of variable rate securities are prohibited.

Credit Enhancement – Credit enhancement may be used to improve or establish a credit rating on a District debt obligation. Types of credit enhancement include letters of credit, bond insurance and surety policies. The General Manager will recommend the use of a credit enhancement if it reduces the overall cost of the proposed financing or if the use of such credit enhancement furthers the District’s overall financial objectives.

Derivative products – Because of their complexity, unless otherwise amended, Derivative Products such as interest rate swaps, interest floaters, and other hybrid

securities are prohibited by this Debt Policy.

Call Options / Redemption Provisions – A call option or optional redemption provision gives the District the right to prepay or retire debt prior to its stated maturity date. This option may permit the District to achieve interest savings in the future through the refunding of the bonds. Often the District will pay a higher interest rate as compensation to the buyer for the risk of having the bond called in the future. In addition, if a bond is called, the holder may be entitled to a premium payment (call premium). Because the cost of call options can vary depending on market conditions, an evaluation of factors will be conducted in connection with each issuance. The General Manager will evaluate and recommend the use of a call option on a case by case basis.

G. Delegation of Authority

The General Manager will be responsible for all of the financial affairs of the District. This Debt Management Policy grants the General Manager the authority to select the Financing Team, coordinate the administration and issuance of debt, communicate with the rating agencies, and fulfill all of the pre-issuance and post-issuance requirements imposed by or related to state law, federal tax law and federal securities law.

Financing Team Definitions and Roles – The financing team is the working group of District staff and outside consultants necessary to complete a debt issuance including but not limited to bond counsel, disclosure counsel, underwriter, municipal advisor, trustee, pricing consultant and/or arbitrage analyst.

Typically, the General Manager and appropriate Department Head(s) form the District staff portion of the Financing Team. As needed, other staff members or designees may be appointed to the Financing Team.

Consultant Selection –The District will consider the professional qualifications and experience of consultants as it relates to the specific bond issue or other financing under consideration. The District Manager shall select such consultants

POLICY TITLE: Investment of District Funds
POLICY NUMBER: 3035

3035.01 PREMISE

The Legislature of the State of California has declared that the deposit and investment of public funds by local officials and local agencies is an issue of statewide concern (California Government Code (CGC) 53600.6 and 53630.1); and,

Government Code Sections 5921 and 53601, et seq., allow the legislative body of a local agency to invest surplus monies not required for the immediate necessities of the local agency; and,

The treasurer or fiscal officer of a local agency is required to annually prepare and submit a statement of investment policy and such policy, and any changes thereto, is to be considered by the local agency's legislative body at a public meeting (CGC 53646(a)).

For these reasons, and to ensure prudent and responsible management of the public's funds, it is the policy of the Foresthill Public Utility District to invest funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all statutes governing the investment of Foresthill Public Utility District funds.

Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations for expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

3035.04 OBJECTIVES

As specified in CGC 53600.5, when investing, reinvesting, purchasing, acquiring, exchanging, selling and managing public funds, the primary objectives of the investment activities, in priority order, shall be:

A notice advising the public of the special meeting, the time and location of the meeting and all business to be transacted or discussed must be delivered to the Board of Directors and posted in a location freely accessible to members of the public at least 24 hours before the meeting. The agenda must provide a brief general description of each item of business to be transacted or discussed at the meeting.

5010.30 Emergency meetings are a limited class of meetings. Emergency meetings are held when prompt action is needed due to actual or threatened disruption of public facilities and are held on little notice.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Board Meeting Agenda
POLICY NUMBER: 5020

5020.10 The Board President and General Manager, shall prepare an agenda meeting the requirements of the Ralph M. Brown Act (Sections 54953 and 54954) for each regular and special meeting of the Board of Directors. Absent approval of the General Manager, the agenda will be “closed” to the addition of new items at 12:00 PM on the ninth (9th) day preceding the regular meeting of the Board of Directors. For example, if Board meetings are on Wednesday, the agenda will be closed to new items at 12 PM on the preceding Monday.

5020.20 Any member of the public may request that a matter directly related to District business be considered for placement on the agenda of a regularly scheduled meeting of the Board of Directors, subject to the following conditions:

5020.21 The request must be in writing and be submitted to the General Manager and forwarded to the President together with supporting documents and information, if any, at least seven business days prior to the close of the agenda for the meeting where the item is to be considered. If the General Manager decides the request should be placed on a Board agenda, General Manager may exercise his/her discretion in including the item on the next, or a subsequent meeting, agenda depending on the press of other business before the Board.

5020.22 The Board President, in consultation with the General Manager shall decide whether the request is or is not a "matter directly related to District business" in determining whether to place the matter on a meeting agenda. The person requesting the agenda addition may submit a request to the Board of Directors to reconsider any adverse decision. Any Director may request that the item be placed on the agenda of a regular scheduled Board meeting.

5020.23 No matter which is authorized for consideration by the Board in closed session will be accepted under this policy.

5020.24 The Board of Directors may place limitations on the total time to be devoted to a public request issue at any meeting, and may limit the time allowed for any one person to speak on the issue at the meeting.

5020.30 This policy does not prevent the Board from taking public comment at regular meetings of the Board on matters which are not on the agenda which a member of the public may wish to bring before the Board. However, the Board shall not discuss or take action on such matters at that meeting.

5020.40 At least 72 hours prior to the time of all regular meetings, an agenda, which includes all matters on which there may be discussion and/or action by the Board, shall be posted conspicuously for public review at the District office. The agenda shall also be posted on the District's website for public information. All information made available to the Board of Directors (except confidential information allowed by State law per legal counsel authority) shall be available for public review at the time it is made available to the Board.

All information made available to the Board of Directors (except confidential information allowed by State law per legal counsel authority) shall be available for public review at the time it is made available to the Board.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Board Meeting Conduct
POLICY NUMBER: 5030

5030.10 Meetings of the Board of Directors shall be chaired by the President in a manner consistent with the policies of the District. Policy No. 5070, "Rules of Order for Board and Committee Meetings", shall be used as a general guideline for meeting protocol. In the absence of the President, the Vice President shall chair the meeting. In the absence of the President and Vice President, the remaining members of the Board shall select one of their members to chair the meeting.

5030.20 All Board meetings shall commence at the time stated on the agenda.

5030.30 The conduct of meetings shall, to the fullest possible extent, enable Directors to:

5030.31 Consider problems to be solved, weigh evidence related thereto, and make informed decisions intended to solve the problems; and,

5030.32 Receive, consider and take any required action in response to reports of District operations.

5030.40 Provisions for permitting any individual or group to address the Board concerning any item on the agenda of a special meeting, or to address the Board at a regular meeting on any agenda item or non-agendized matter that lies within the jurisdiction of the Board of Directors, shall, subject to modification as may be determined to be necessary by the chairperson, be as follows:

5030.41 Five minutes may be allotted to each speaker and a maximum of 20 minutes to each subject matter.

5030.42 No disruptive conduct shall be permitted at any Board meeting. Persistence in disruptive conduct shall be grounds for summary termination, by the Chairperson, of that person's privilege of address.

5030.50 Disruption of any of the meetings of the Board of Directors shall not be permitted. If the chairperson determines that disruption of any meeting of the Board is occurring, he/she may order the disrupting parties out of the room and subsequently conduct the Board's business without them present.

5030.51 After clearing the room of disruptive individuals, the President may permit those persons who, in his/her opinion, were not responsible for the willful disruption to remain in the meeting room.

5030.52 Duly accredited representatives of the news media shall be permitted to remain in the meeting provided they did not participate in the disruptive activity.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Board Actions and Decisions
POLICY NUMBER: 5040

5040.10 Actions by the Board of Directors include but are not limited to the following:

5040.11 Adoption or rejection of regulations or policies;

5040.12 Adoption or rejection of a resolution;

5040.13 Adoption or rejection of an ordinance;

5040.14 Approval or rejection of any contract or expenditure;

5040.15 Approval or rejection of any proposal which commits District funds or facilities, including employment and dismissal of personnel; and,

5040.16 Approval or disapproval of matters that require or may require the District or its employees to take action and/or provide services.

5040.20 Action can only be taken by the vote of the majority of the Board of Directors. Three (3) Directors represent a quorum for the conduct of business. Actions taken at a meeting where only a quorum is present, therefore, require all three (3) votes to be effective (unless a 4/5 vote is required by policy or other law).

5040.21 A member abstaining in a vote is considered as absent for that vote. A member abstaining due to a conflict of interest does not count towards a quorum. Refer to Policy 4050 regarding when Directors should recuse themselves from participating in the discussion or vote.

5040.22 Example: If three of five Directors are present at a meeting, a quorum exists and business can be conducted. However, if one of three Directors comprising the quorum abstains on a particular action and the other two cast "aye" votes, no action is taken because a "majority of the Board" did not vote in favor of the action.

5040.23 Example: If an action is proposed requiring a two-thirds vote and two Directors abstain, the proposed action cannot be approved because four of the five Directors would have to vote in favor of the action.

5040.24 Example: If a vacancy exists on the Board and a vote is taken to appoint an individual to fill said vacancy, three Directors must vote in favor of the appointment for it to be approved. If two of the four Directors present abstain, the appointment is not approved.

5040.30 The Board may give directions that are not formal action. Such directions do not require formal procedural process. Such directions include the Board's directives and instructions to the General Manager.

5040.31 The President shall determine by consensus a Board directive and shall state it for clarification. Should any two Directors challenge the statement of the President, a voice vote may be requested.

5040.32 A formal motion may be made to place a disputed directive on a future agenda for Board consideration, or to take some other action (such as refer the matter to the General Manager for review and recommendation, etc.).

5040.33 Informal action by the Board is still Board action and shall only occur regarding matters that appear on the agenda for the Board meeting during which said informal action is taken.

The provisions of 1094.6 shall prevail over any conflicting provision and any otherwise applicable law, rule, policy or regulation of the District, affecting the subject matter of an appeal.

5050.20 This policy affects those administrative decisions rendered by the Board of Directors governing acts of the District, in the conduct of the District's operations and those affecting personnel operating policies.

5050.30 The purpose of this policy is to insure efficient administration of the District, and the expeditious review of decisions rendered by the Board of Directors.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Rules of Order for Board and Committee Meetings
POLICY NUMBER: 5070

5070.10 General.

5070.11 Action items shall be brought before and considered by the Board by motion in accordance with this policy. These rules of order are intended to be informal and applied flexibly. The Board prefers a flexible form of meeting and, therefore, does not conduct its meetings under formalized rules - Robert's Rules of Order.

5070.12 If a Director believes order is not being maintained or procedures are not adequate, then he/she should raise a point of order - not requiring a second - to the Chairperson. If the ruling of the Chairperson is not satisfactory to the Director, then it may be appealed to the Board. A majority of the Board will govern and determine the point of order.

5070.20 Obtaining the Floor.

5070.21 Any Director desiring to speak should address the Chairperson and, upon recognition by the Chairperson, may address the subject under discussion.

5070.30 Motions.

5070.31 Any Director, including the Chairperson, may make or second a motion. A motion shall be brought and considered as follows:

5070.32 A Director makes a motion; another Director seconds the motion; and the Chairperson states the motion.

5070.33 Once the motion has been stated by the Chairperson, it is open to discussion and debate. After the matter has been fully debated, and after the public in attendance has had an opportunity to comment, the Chairperson will call for the vote.

5070.34 If the public in attendance has had an opportunity to comment on the proposed action, any Director may move to immediately bring the question being debated to a vote, suspending any further debate. The motion must be made, seconded, and approved by a majority vote of the Board.

5070.40 Secondary Motions. Ordinarily, only one motion can be considered at a time and a motion must be disposed of before any other motions or business is considered. There are a few exceptions to this general rule, though, where a secondary motion concerning the main motion may be made and considered before voting on the main motion.

5070.41 Motion to Amend. A main motion may be amended before it is voted on, either by the consent of the Directors who moved and seconded, or by a new motion and second.

5070.42 Motion to Table. A main motion may be indefinitely tabled before it is voted on by motion made to table, which is then seconded and approved by a majority vote of the Board.

5070.43 Motion to Postpone. A main motion may be postponed to a certain time by a motion to postpone, which is then seconded and approved by a majority vote of the Board.

5070.44 Motion to Refer to Committee. A main motion may be referred to a Board committee for further study and recommendation by a motion to refer to committee, which is then seconded and approved by a majority vote of the Board.

5070.45 Motion to Close Debate and Vote Immediately. As provided above, any Director may move to close debate and immediately vote on a main motion.

5070.50 Decorum.

5070.51 The Chairperson shall take whatever actions are necessary and appropriate to preserve order and decorum during Board meetings, including public hearings. The Chairperson may eject any person or persons making personal, impertinent or slanderous remarks, refusing to abide by a request from the Chairperson, or otherwise disrupting the meeting or hearing.

5070.52 The Chairperson may also declare a short recess any time during any meeting.

5070.60 Amendment of Rules of Order.

5070.61 By motion made, seconded and approved by a majority vote, the Board may, at its discretion and at any meeting: a) temporarily suspend these rules in whole or in part; b) amend these rules in whole or in part; or, c) both.

5070.62 The Chairperson may rearrange items (matter) on the agenda as necessary.

**ADVANCE FUNDING AGREEMENT
REGARDING COSTS PERTAINING TO DEVELOPMENT PLAN FOR THE
PROJECT**

THIS ADVANCE FUNDING AGREEMENT (the "Agreement") dated as of [REDACTED] is entered into by and between the Foresthill Public Utility District, a public utilities district and a political subdivision of the State of California, formed and operating pursuant to the provisions of Public Utilities Code Section 15000 et seq., (the "District"), and [REDACTED] ("Developer"). District and Developer are hereinafter sometimes referred to collectively herein as the "Parties."

RECITALS

A. Developer owns certain real property ("Property") either within the District or proposed to be annexed to the District which it intends to develop as a residential/commercial project to be known as [REDACTED] ("Project"). A map depicting the location of the Property is attached hereto as Exhibit "A" and is incorporated herein by this reference.

B. The Property is located within the County of Placer ("County"). Developer will apply to County for approval of a general plan amendment, rezone and tentative subdivision map for the Project. The Project will result in a need for municipal services and facilities for water supply, treatment and distribution. Developer has filed its written application with District requesting water service to the Project.

C. District is the public agency responsible for the planning, design, development, construction, operation, maintenance, repair, and improvement of water supply, water treatment and water distribution facilities and services located within its jurisdictional boundaries. District's Development Policies contained in Section 6000 of the District's Policy Handbook requires Developer to plan, design, fund, construct, and warrant all water supply, distribution and treatment facilities ("Water System Improvements") to serve the residents of the Project. County has designated District as the public agency responsible for providing water facilities and services to the Project and its residents. It is therefore necessary that District and Developer agree on the nature, location, size, amenities, plans and specifications for the Water System Improvements to be constructed within the Project and dedicated to District. Upon dedication of the Water System Improvements to District and acceptance of such Water System Improvements by District, District shall be responsible for all operation and maintenance of such Water System Improvements within the Project.

D. District has adopted its Development Policies which require Developer to enter into this Advance Funding Agreement in order to allow the District to commence its development review process with respect to the Water System Improvements to be designed and constructed to serve the Project. The District's Development Policies

contemplate the negotiation of a subsequent and separate Development Agreement between Developer and District specifying the obligations of the Developer and the requirements of the District with respect to specific planning, construction, operation and maintenance of the Water System Improvements to serve the Project. The policies also include a fee program by which fees are charged to each Developer to reimburse the administrative, engineering, legal, environmental and consulting costs incurred by District in the review, revision, planning, design, financing, approval, construction, inspection, and acceptance of the Water System Improvements to serve the Project (the "Fee Program").

E. Developer and District desire to enter into the Agreement in order to (1) define the terms and conditions under which Developer will provide advance funding to the District to enable the District to reimburse its administrative, engineering, legal, environmental and other consulting costs incurred in reviewing the planning and design of the Water System Improvements by Developer pursuant to its Fee Program; and (2) to define the Scope of Work to be performed by District staff and its consultants in reviewing the design, construction, inspection and acceptance of the Water System Improvements.

F. In order to comply with the Fee Program pending negotiation by the Parties of the terms and conditions of a Development Agreement which incorporates the Plans and Specifications for constructing the Water System Improvements, Developer hereby agrees to enter into this Agreement to provide a mechanism to advance funds to District to reimburse the administrative, engineering, legal, environmental and other consulting costs incurred by the District for those services and in those estimated amounts as specified in the Scope of Work attached hereto as Exhibit "B."

G. In consideration of Developer's execution of this Agreement and advance funding of those administrative, engineering, legal, environmental and other consulting costs incurred by District pursuant to the Scope of Work, District agrees to undertake and complete the tasks described in the Scope of Work.

H. District has established the Project Development Fund ("Fund") for the purpose of accepting advances of funds by Developer to District to be used by District to reimburse those costs and expenses incurred by District in performing the activities described in the Scope of Work.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises and covenants set forth herein, the Parties agree as follows:

1. Recitals. Each of the above recitals is incorporated herein and is true and correct.

2. Scope of Work. The Parties agree that the Scope of Work attached hereto contains the summary of the primary tasks to be performed by District and its staff and consultants to review, revise, modify, plan, design, finance, approve, construct and accept the Water System Improvements to be constructed by Developer to serve the Project; estimating the costs of planning, designing and constructing such Water System Improvements and providing such services; and developing a financing plan to provide for the design, planning, construction, operation and maintenance of the Water System Improvements constructed within the Project to serve its residents. District will retain, at Developer's expense, the necessary consultants to perform the tasks outlined in the Scope of Work, including, but not limited to engineers, special tax consultants, attorneys, architects, environmental consultants and any other consultants deemed necessary by District.

3. Advance Funding. In order for District to begin performing the tasks outlined in the Scope of Work, Developer and District hereby acknowledge that Developer has advanced to District the sum of _____ (\$ _____) to be applied to the estimated amount of these costs for the tasks outlined in the Scope of Work performed by District as itemized in Exhibit "B." District has established a separate Fund for the purpose of accepting advances of funds by Developer to District to be used by District to reimburse its costs and expenses incurred in reviewing, revising, modifying, approving, inspecting, constructing, and accepting the Water System Improvements to be designed and constructed by Developer at its sole cost and expense to serve the Project.

As District incurs the direct and indirect costs and expenses associated with its review of Applicant's Project specified in the Scope of Work at Exhibit "B," District shall disburse from the Fund the sums required to reimburse the District for such costs and expenses as they are incurred. From time to time, Developer shall make additional advances to the District within fifteen (15) days following receipt from District a notice which will request an additional advance to cover the costs of District to perform the tasks outlined in the Scope of Work. Developer shall make such subsequent advances as requested by District. Should Developer decide to abandon the Project, Developer shall be responsible to pay all costs and expenses incurred by the District or any District Consultant or advisor relating to the tasks outlined in the Scope of Work until work with respect to the tasks outlined in the Scope of Work ceases following the receipt of Developer's notice of abandonment.

In the event Developer does not deliver the requested additional funding amount to District within the applicable 15-day period, District will have no obligation to proceed with its review and approval of the Developer's Application or to perform any of the tasks outlined in the Scope of Work until such additional advances are received. Upon request, District will provide to Developer a summary of how the Developer's advances have been spent and the unexpended balance remaining. If the amount of the deposit at any time is insufficient to reimburse the District for all the costs it has incurred with respect to Developer's Project with respect to engineering, design, legal, environmental,

inspection and other costs attributable to the Water System Improvements, the Developer shall replenish the funds advanced upon demand of the District which will specify the amount of funds required to be deposited to cover such additional costs. At no time shall the District have any obligation to continue its processing of Developer's Application or performing a task, outlined in the Scope of Work until such additional requested deposits have been received from Developer.

4. Abandonment of Project or Refusal to Advance Funds. POLICY TITLE: ENVIRONMENTAL REVIEW GUIDELINES
POLICY NUMBER: 6020

6020.10 The California Environmental Quality Act (CEQA), is a statute that requires state and local agencies to identify the significant environmental impacts of their actions and to avoid or mitigate those impacts, if feasible. The Foresthill Public Utility District shall comply with CEQA.

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Annexation Procedures
POLICY NUMBER: 6030

6030.10 Property must be annexed to the District prior to receiving District services . Furthermore, unconditional commitments to provide water service to property and/or proposed developments will not be granted until said property is annexed to the District.

6030.20 In conformance with Policy #6040, District approval of residential, commercial, industrial or other types of development projects will not be granted by the Board of Directors until the entire site has been annexed to the District, or will be granted with the condition that the entire project site be successfully annexed to the District.

6030.30 Annexation Procedures.

6030.31 Determine suitability. Property owners or project developers desiring annexation to the District should first determine several factors regarding their property's suitability for water service :

6030.311 Is the property presently not within the District's boundaries?

6030.312 Is the property within the sphere of influence established for the District by the Local Agency Formation Commission (LAFCo)?

6030.313 Where are the District's existing water system facilities relative to the property?

6030.314 Is the excess capacity in the District's existing facilities adequate for the property's proposed development density?

6030.315 Information regarding District annexation, sphere of influence, and the location of existing water system facilities and available excess capacity will be provided by District staff upon request. Determination of the property's suitability for development and/or connection to the water system is the responsibility of the property owner, and his/her use of professional engineering and/or development consultants is encouraged.

6030.32 Application to LAFCo. LAFCo has been established by the State Legislature to,

among other duties, review and approve or disapprove proposals for annexation of territory to special districts. Approval by LAFCo of any annexation proposal is required before the District can approve the annexation and provide water service .

6030.321 To initiate the LAFCo application procedure, owners of the property proposed for annexation, or the registered voters residing within the area proposed for annexation, shall submit a petition (56704, Ca. Gov. Code) to LAFCo. The contents of the petition, itemized below, shall conform to 56700 of the California Government Code.

6030.322 With the petition, annexation proponents shall submit to LAFCo a map and legal description of the proposal. The contents of the map and legal description, itemized below, shall conform to LAFCo and the State Board of Equalization requirements.

6030.323 Also with the petition, annexation proponents shall submit to LAFCo a completed application form and appropriate filing and environmental review fees.

6030.33 Application to District. If annexation proponents desire to receive confirmation of District acceptance of their proposal prior to initiating the LAFCo application, the petition, map, legal description and LAFCo application form, discussed in 6030.323 above, should be submitted to the District office. (A minimum deposit of \$2,500.00 must also accompany said submittal to cover LAFCo's filing and environmental review fees, State Board of Equalization fees, and District processing costs. When the annexation process is complete or terminated, cost overruns will be billed to the applicant, and underruns will be refunded.)

6030.331 The Board of Directors will consider the annexation proposal at a regularly scheduled meeting. Acceptance by the Board of the proposed annexation shall be formalized by the adoption of a resolution. Said resolution shall contain the following:

- a. all of the information required in the petition, as itemized below, excepting provisions regarding signatories and signatures;
- b. the annexation map and legal description as attachments;
- c. verification that the District desires to annex the subject territory;
- d. authorization for the resolution to be submitted as an application for annexation approval by LAFCo; and,
- e. a request that LAFCo approve and authorize the District to conduct proceedings for the annexation without notice and hearing and without an election (only if the petition has been signed by all of the owners of land within the boundaries of the proposed annexation).
- f. conditions as may be determined by the Board of Directors.

6030.34 District Approval of Annexation. If LAFCo accepts the annexation proposal it will adopt a resolution and forward same to the District. After confirmation of LAFCo acceptance, and after the annexation proponent(s) tenders to the District applicable annexation fees (discussed below) and appropriate recording and State Board of Equalization fees, as determined by LAFCo, the District's Board of Directors, at a regularly scheduled meeting, will consider approval of the proposed annexation. Approval by the Board of the proposed annexation shall be formalized by the adoption of a resolution.

6030.341 Said resolution shall contain the following provisions:

- a. That a description of the annexed lands shall be attached to said resolution;
- b. The annexed land shall be subject to the District's policies, rules and regulations, charges made, and assessments levied pursuant to the provisions of the laws pertaining to public utility districts to pay for outstanding obligations of said district, and also shall be subject to all and any combination of assessments, tolls and charges as may exist at the adoption of the resolution and as thereafter may be established and/or levied by the County of Placer and/or the District for any District purpose;
- c. The District shall be under no obligation to install water system facilities or any facilities in connection with the subject annexation and the owners of the land to be annexed shall install, as and when water service is desired, without cost, charge or obligation to the District, a complete water supply system as may be specified by the District, in accordance with plans and specifications approved by the General Manager, in a manner meeting his/her approval, and shall convey, at no cost to the District, all of said water system improvements, including rights of way over all parts thereof, to the District; and,
- d. The project developers and/or owners of the annexed property, and their heirs, successors and assigns shall agree to abide by all Board policies, rules and regulations of the District presently established and as shall be established by the Board in the future.

6030.342 After adoption of said resolution of approval by the Board of Directors, it shall be sent to LAFCo along with necessary fees, for processing of State filings, local recordings, and filing with the State Board of Equalization.

6030.361 All documents must be capable of producing a readable photographic image;

6030.362 Every description must be self-sufficient within itself and without the necessity of reference to any extraneous document, with references to deeds of record used only as a secondary reference;

6030.363 When writing a metes and bounds description of a contiguous annexation, all details of the contiguous portion(s) of the boundary may be omitted, with the points of departure from the existing boundary clearly established;

6030.364 A specific parcel description in sectionalized land is permissible without a metes and bounds description of the perimeter boundary;

6030.365 A parcel description making reference only to a subdivision or a lot within a subdivision is not acceptable, unless all dimensions needed to plot the boundaries are given on an accompanying plat, and the relationship of lot lines with street rights of way must be clearly indicated;

6030.371 All descriptions must be prepared by a surveyor or civil engineer licensed in the State of California, and his/her stamp and signature shall be affixed to said description.

6030.38 In addition to LAFCo filing, environmental review, State filing, recording, State Board of Equalization and any other applicable non-District fees, an annexation fee shall be paid to the District prior to adoption by the Board of Directors of the resolution approving any annexation. Said annexation fee is presently established at \$492.00 per acre.

6030.39 The Board of Directors may adjust said annexation fee from time to time by the following formula:

FORESTHILL PUBLIC UTILITY DISTRICT POLICY HANDBOOK

POLICY TITLE: Development Agreements
POLICY NUMBER: 6050

6050.20 The development agreement shall contain the following information:

6050.21 Name(s) of developer and/or project sponsor(s), and owner(s) of subject property;

6050.22 Assessor's parcel number of subject property;

6050.23 Type and purpose of project (e.g., residential, commercial, industrial, etc.); and,

6050.24 A graphic description of the project attached to the agreement as "Exhibit A."

6050.30 The following shall be used as standard terms and conditions of the development agreement:

6050.31 STANDARDS FOR WATER SYSTEM: Plans have, at no cost to District, been designed and prepared for the on-site and off-site water system which include Developer's obligation to accomplish the following:

6050.311 Construct the water system in conformance with the approved plans therefore; and,

6050.312 Obtain an encroachment permit from the Department of Public Works of the County of Placer and comply with all requirements thereof, including trench restoration and street resurfacing requirements for any portion of the project situated within existing or proposed future county right of way.

6050.32 ACCEPTANCE OF PLANS AND SPECIFICATIONS: The completed plans as described above for the water system have been prepared in conformance with District Improvement Standards and the requirements of the District" General Manager or Consulting Engineer, and are in a form acceptable to same.

6050.33 REVISION OF PLANS: Any changes in such accepted plans shall require written approval of Developer and the District General Manager or Consulting Engineer.

6050.34 RIGHTS OF WAY: Owners will provide to District, at no cost to District and in a form acceptable to the District's General Manager, Consulting Engineer or Legal Counsel , appropriate easements and rights of way for the maintenance, repair, and replacement of all water system facilities not within existing public rights of way, public utility easements, and/or water utility easements.

6050.35 CONSTRUCTION: Developer shall, without expense to District, construct the water system improvements pursuant to the accepted plans or any approved modification thereof. Developer shall provide in any contract for construction of the water system that any contractor's materials supplier's guarantees thereunder, including a one (1) year warranty on the completed improvements, shall inure to the benefit of District after the works constructed thereunder have been conveyed to District as provided for in 6050.39, below. Developer shall also provide in any contract for construction of the water system that the contractor's public liability and property damage insurance shall be extended to cover Developer and District and their agents, officers and employees as additional insured with liability and bodily injury limits of not less than \$1,000,000 , and property damage coverage of not less than \$1,000,000 combined single limits. .

6050.36 PAYMENT OF PREVAILING WAGES: Developer has been advised that the State of California (State) Attorney General has opined that, in certain circumstances, construction of facilities for provision of public utility service, with the understanding and agreement that said facilities will be turned over to District for ownership, operation and maintenance at the conclusion of construction, may be subject to the prevailing wage laws of the State. Developer has determined that, at this time, said opinion of the Attorney General does not affect the wages paid by Developer to laborers employed on said facilities constructed pursuant to this agreement. Developer agrees, however, that should it be determined that the prevailing wage laws of the State (Labor Code Sec 1770, et seq.) apply to the work performed in accordance with this agreement, then Developer shall defend and hold District harmless from any liability, claims, damages, or costs in any way associated with said determination by the State and Developer shall, as further consideration of District entering into this agreement, take all necessary and appropriate action, including payment of back wages, and any associated penalties which may be required, due to enforcement of the prevailing wage laws in connection with construction of the water system. Developer agrees that District has not represented or in any way advised Developer in connection with this matter except to advise Developer of his potential liability and Developer does not in any way rely upon any opinion or information of District in making his determination in connection with the payment or nonpayment of such wages for the work performed under this agreement. The obligation of Developer to, if required, pay prevailing wages for the work performed in accordance with this agreement shall be a continuing obligation and shall bind the heirs, successors and assigns of Developer and District's obligation to provide operation and maintenance on the facilities to be turned over to District, and to provide water service therein, shall be dependent upon Developer's continuing compliance with this provision.

6050.37 INSPECTION OF CONSTRUCTION: The District's General Manager or Consulting Engineer or his/her agent(s) shall inspect the construction of the water system to assure that the works are installed in accordance with the accepted plans. Said inspection shall be funded by an inspection fee paid by Developer as specified in District's Improvement Standards. Construction of the water system shall not commence until said inspection fee is paid. The District's General Manager or Consulting Engineer shall notify Developer as to any deviation or failure to construct pursuant to the accepted plans as soon as such deviation or failure is brought to his/her attention, and Developer shall correct such deviation or failure.

6050.38 HOLD HARMLESS: District is not, by inspection of the construction or installation of the water system, representing Developer or providing a substitute for inspection and control of the work by Developer. Any inspections and observations of the work by District are for the sole purpose of providing notice of stage and character of the work. Any failure of District to note variances in the work from the plans does not excuse or exempt Developer from complying with all terms of the plans. The fact that District inspects the construction of work and notifies Developer of deviations or failures to construct them pursuant to the accepted plans shall not be deemed to constitute a guarantee by District that the works have been built in accordance with the accepted plans. During construction and prior to conveyance thereof and acceptance thereof by District, Developer shall hold District harmless against any and all claims, demands and charges by third parties arising out of alleged deviations or failures to construct pursuant to the accepted plans.

6050.39 CONVEYANCE: Within ninety (90) days after completion of construction of the water system in accordance with the accepted plans therefor and District's Improvement Standards:

Said bond or irrevocable letter of credit shall name Developer as Principal and District as Obligee; and,

6050.395 District shall accept conveyance of title of the completed water system by resolution and include it as part of its system, and shall thereafter operate and maintain said system.

6050.40 DEVELOPER'S RESPONSIBILITIES AFTER CONVEYANCE: After District's acceptance of the water system, Developer and Owners shall have no obligation for the operation, maintenance, repair or replacement thereof, except that to the extent Developer and/or Owners retain ownership of any parcel to which service from such works is available, they shall pay the same rates and charges levied by District from time to time as any other property owner.
